

STEP 3. Choose!

"Dreams are lovely. But they are just dreams. Dreams do not come true because you dream them. It's hard work that makes things happen. It's hard work that creates change"

~ Shondra Rhimes, television producer, screenwriter and author

- Listen to what **JACK CANFIELD** has to say about **CHOOSING A CAREER**.
- The key is to choose a major and future career path that matches your talents, interests, and economic need. Try this **START LESSON** if you'd like more information.
- Be thinking about building more skills and trying new things (e.g. volunteering, clubs, or internships) so that you can build your career capital and have even more options for your future career.
- Go to **EXPLORE** for try it out activities
- Choose 1 to 3 actions you can take to move forward to choosing a guided pathway that is a good fit for you.
- Write down the specific actions, deadlines, and support you will need to make changes. **CLICK HERE**, start to fill out the worksheet and share it with your advisor

3 STEPS AND YOU'RE DONE...KIND OF.

That wasn't so bad, was it? Now that you have some direction, spend the next few semesters upping your skills and knowledge. The more you know, the more you grow.

STILL FEEL LOST?

1. Here are some questions to help you narrow down your choices:
 - What are you good at?
 - Whom do you look up to?
 - Anything you want to try?
 - What was your favorite class in high school?
 - What do you do for fun?
 - What do you enjoy learning about outside of school?
 - What have you already done that's related to what you're interested in?
 - Do you already have some skills that fit the field you're considering?
2. Once you've picked out a couple of possible majors, see if your community college offers the classes you'll need (or ones closely related).
3. Choose the majors most related to your industry and career field.
