

Time to talk it up!  
And make some contacts.

## STEP 2. Connect!

**So you've made some big choices, now tell the world or, you know, friends and family.**

Ask them if they know anyone in the field you want to pursue. You'd be surprised you could end up with a new mentor or maybe even an internship. There's plenty else you can do to get a little guidance and hands on experience.

- *Talk to someone doing the job you think you might love to do. **INFORMATIONAL INTERVIEW***
- *Get experience in the field. You can job shadow, **INTERNSHIP**, **VOLUNTEER** or take on a short term job or project.*
- *Try living in the future for a short time and trying it on to see if it fits you.*
- *Share your findings or experience with your advisor.*

**PEOPLE WHO  
STARTED OUT  
AS INTERNS:  
Steve Jobs, Steven  
Spielberg, Mindy Kaling,  
Kanye West, Oprah  
Winfrey, Sean Combs  
and more...**
